PROFILE SUMMARY

Experienced Software Test Engineer with **3+ years** in **Manual** and **Automation Testing**, specializing in **Regression**, **Smoke**, and **Black-box Testing**. Proficient in **Hybrid Framework**(TDD and DDD frameworks), **Selenium(Java)**, **JIRA**, and **TestRail**. Skilled in **defect tracking**, **POM class** maintenance, and **collaboration** for delivering **reliable software solutions** across **diverse domains**.

PROFESSIONAL EXPERIENCE

SOFTWARE TEST ENGINEER | UIPROPITOME TECH PVT. LTD. | 3+ YEARS August 2021 - November 2024

- At **UIPROPITOME Tech**, performed **Test Automation**, **Regression**, and **Smoke testing** while **Managing POM Classes** and **Utility packages**. Ensured **Software Quality** using **Agile methodologies**. Contributed to **CRM**, and **healthcare** projects by **optimizing testing strategies**, **tracking defects** with **JIRA**, **managing test cases** in **TestRail**, and driving continuous improvement for **software reliability**.

PROJECT DOMAINS

CUSTOMER RELATIONSHIP MANAGEMENT (CRM DOMAIN)

October 2022 - November 2024

Overview:

- The project focused on **automating** and **manually validating CRM features**, including **regression** and **smoke testing** for various **customer-centric operations**. This ensured a **robust and efficient customer relationship management system**.

Roles & Responsibilities:

- Executed **Automation Test Scripts**, **Batch execution**, and **TestScript Execution** & manually executed **Regression** and **Smoke Test Cases** for the same **Test Scenarios**.
- Maintained **Elements(WebElement)** of **POM classes**.
- Experienced in Handling and maintaining **genericUtility** package.
- Worked in Hybrid Framework i.e **Test-Driven Development (TDD)** and **Data-Driven Development (DDD)** frameworks

HEALTH CARE / MEDICAL DOMAIN

August 2021 - September 2022

Overview:

- The project involved validating healthcare applications to ensure end-to-end functionality across critical features like patient management, appointment scheduling, and medical record handling, aligned with healthcare standards.

Roles & Responsibilities:

- Prepared **test scenarios** and **test case** documents as per **SRS (Software requirement specifications)** document.
- Executed **functional, integration, and system** test cases for ensuring **end-to-end features** work as per requirements.
- Perform **full regression testing** as per health domain project requirements.

TECHNICAL SKILLS

SKILL CATEGORY	SKILLS
AUTOMATION TOOLS & FRAMEWORKS	Selenium (Java), TestNG(TDD), Data Driven Development Framework, Apache POI, Apache POI-OOXML
PROGRAMMING LANGUAGES	Java, JavaScript
CI/CD & VERSION CONTROL	Git, GitHub, Maven, Jenkins
TESTING TECHNIQUES	Functional Testing, UI Testing, API Testing, RegressionTesting, Exploratory Testing, Accessibility Testing, Smoke/Sanity Testing, Full Regression Testing
TEST MANAGEMENT TOOLS	JIRA, TestRail, Zephyr
API TESTING TOOLS	Postman
OTHER BASIC EXPERTISE	Html , CSS , JavaScript , ReactJS , TailwindCSS , Linux(CentOS)

EDUCATION

- **Dr. APJ Abdul Kalam Technical University, Lucknow**
BTech in Mechanical Engineering (August 2013 - June 2017) - 7.3 CGPA
- **All India Computer Education Mission (AICEM)**
PGDCA in Computer Application (June 2017 - December 2018) - 7.9 CGPA
